è nato il 23 Novembre 1981, Ukraina

Breve descrizione

Sviluppatore Java/J2EE. Progettazione e realizzazione di Sistemi d'informazione. OOP. N-tiers Architetture. Base di dati/SQL. Design patterns. UML. RUP, agile software development. Esperienza nella industrializzazione de processo di sviluppo. European education. Master degree in Computer Science. 8 years of international experience (projects for IT-consulting, insurance and software companies). 21 IT-certifications from Brainbench system. Fluent french, good english, russian and ukrainian - native speaker. Purposeful and responsible. Professional ambition - become a software architect.

Istruzione e formazione

2012	Coursera Online courses. Software Engineering for Software as a Service (Ruby/RoR) from UC Berkeley; Compilers from Stanford (in progress).
2008	Teamlog Institute (Parigi, Francia) Professional courses organized by Teamlog Institute. Effective communication, English courses (intermediate level)
2004-2005	University Paris-Est Marne-la-Vallée (Champs-sur-Marne, Francia) Master Degree in Computer Science. DESS « Communication, Network, Image », section Network (actual Master CS).
2005	Conservatoire National des Arts et Métiers (CNAM) (Champs-sur-Marne, Francia) Enterprise management course for engineers. Social Management course.
1999-2004	Ukrainian State University of Chemical Engineering (Dnipropetrovsk, Ukraina) Speciality « Specialized computer systems ». Master Degree in Computer Science, with honour (2004).

Esperienza lavorativa

Da giugno 2008	<p>Azienda: Open-Groupe (Teamlog) (Parigi/Lannion/Kiev) Posizione ricoperta: Referente tecnico</p> <p>Descrizione della missione: Participation in the design, development and management of the IT-projects (some on offshore mode). Architecture development, solving critical technical problems. Setup project infrastructure: SVN, builds, unit tests, Mantis, etc. Code revue. Participation in industrialization of IT-projects development(continuous integration, design/code quality, metrics, software factory). Conducting the technical interviews. Responsible for communication with customers. Technical audit for Java/J2EE projects (ISO-9126, Sonar, PMD, Cobertura, Metrics, SourceMonitor).</p> <p>Technologie usate: Java/J2EE, Spring, Hibernate, Quartz, Struts, JUnit, Servlets/JSP, JAAS, JAXB, decompiler JAD, MySQL, LDAP, Ant, Maven, TeamCity, DBUnit, Linux, RPM, PowerDesigner, Redmine+Mylyn.</p>
----------------	---

Ottobre 2006 - Maggio 2008	<p>Azienda: DVK-Tech (Parigi, Francia)</p> <p>Posizione ricoperta: Java/J2EE Software Engineer</p> <p>Descrizione della missione: Java/J2EE consulting and development for different companies. The list of projects done with DVK-Tech is presented below and marked by ***.</p>
Novembre 2007 - Maggio 2008	<p>Azienda: Générali (Saint-Denis, Francia)</p> <p>Posizione ricoperta: Sviluppatore Java/J2EE</p> <p>Descrizione della missione: Development of Java-based enterprise server. Technical design and implementation of different integration modules for connecting externs information systems. The development process is based on some industrial standards of the software building.</p> <p>Technologie usate: JAVA/J2EE, EJB, application server WebSphere 6.1, Oracle, SQL, MyEclipse, Rational Rose, UML. Advanced using of SQL language</p>
Ottobre 2007	<p>Azienda: SMI-Mutuelle (Parigi, Francia)</p> <p>Posizione ricoperta: Consulente Java/J2EE</p> <p>Descrizione della missione: Audit of a web-application that represents the company business workflow. Analysis and documentation of the existing architecture with further recommendations for optimisation and evolution. Writing the technical documentation describing the development environment and deployment process.</p> <p>Technologie usate: Java/J2EE, Servlet, Java Service Wrapper, Winstone, Oracle 8; UML diagrams</p>
Marzo 2007 - Ottobre 2007	<p>Azienda: Mondial-Assistance (Parigi, Francia)</p> <p>Posizione ricoperta: Sviluppatore Java/J2EE</p> <p>Descrizione della missione: Participation in the design and development of « e-commerce » projects. Persistence layer has been implemented with Hibernate and JDO (XCalia implementation). Bridge between business logic and presentation layer was developed according to MVC pattern on Struts framework. Web GUI-components development with AJAX. Architecture design and implementation of different application modules. Implementation of business logic layer.</p> <p>Technologie usate: Java/J2EE, Struts 1.3, Hibernate 3.0, JDO (Xcalia implementation), Servlet/JSP, JSTL, Tomcat 5.5, MySQL, Oracle, MS SQL Server, FreeMaker, Common-Controls, many librairies from Jakarta Commons.</p>
Ottobre 2006- Febbraio 2007	<p>Azienda: Web Agency DUKE (Parigi, Francia)</p> <p>Posizione ricoperta: Sviluppatore Java/J2EE</p> <p>Descrizione della missione: Design and realization of web site "back-office" solutions based on 3-tier architecture; persistence, business object layer (POJO), deployment ; logging, security and emailing modules. Developing of the security module for a web-application with Tomcat container managed security. Persistence layer implemented only with DAO's based on pure JDBC API. Programming the java-façades for Flash-based GUI-interface. Web GUI-components development with AJAX. Conception and realization of standalone application (server) aimed to survey the availability of internet sites. This application was developed with multithreading features as daemon for Linux Debian OS. Participation in projects architecture design. Technologie usate: Java/J2EE, JDBC, Servlet/JSP, Tomcat 5.5, MySQL 4.1, PostgreSQL, Log4j, Velocity, JSVC.</p>

Dicembre 2005 - Agosto 2006	<p>Azienda: ISD - Information Systems Development (Dnipropetrovsk, Ukraina)</p> <p>Posizione ricoperta: Sviluppatore Junior Java</p> <p>Descrizione della missione: Development of web-based time management system. Accomplished tasks: developing gui-components based on JSF; application server migration from WebSphere to JBoss; implementation of stress-test scripts with OpenSTA and SCL language; application maintenance management. Technologie usate: Application servers WebSphere and JBoss, RDBMS Oracle, Hibernate, Spring, JSF, JNDI.</p>
Aprile 2005 - Ottobre 2005	<p>Azienda: LegitiName (Rumelange, Luxembourg)</p> <p>Posizione ricoperta: Sviluppatore .NET/C#</p> <p>Descrizione della missione: Responsible for product evolution "SiteAudit". Specification and implementation of core project functionality. Preparing technical documentation. Technologie usate: Programming on framework .NET, language C#, XML (XPath, XSD), ADO.NET, Microsoft SQL Server, libraries "Microsoft XMLDiff and XMLPatch 1.0" and "HtmlAgilityPack" by Simon Mournier.</p>

Conoscenze informatiche

Sistemi operativi	Mac OS X; MS Windows; Linux.
Linguaggi di programmazione	Java , C# , Python, Pascal, PHP.
Java/J2EE	Core Java (J2SE); Standards J2EE: application/web servers, JDBC, Servlets/JSP, JNDI, RMI, EJB, Web Services. Application/web servers : JBoss, WebSphere, Tomcat, Resin. Deep understanding of basis of distributed n-tier architecture: business objects (POJO and EJB), persistence, security issues, transactions, multithreading, logging. Java frameworks and libraries: Log4j, Spring, Struts, Hibernate, Quartz, many sub-projects of Apache Commons, Velocity, iText, JSVC. XML (XSL, XPath, XSD), HTML(CSS, JavaScript). Unit testing with JUnit, TestNG and DBUnit, integration with Spring testing framework.
.NET	.NET/C# 3.5, NHibernate, MsBuild, NUnit, DbUnit, MS Visual Studio 2008 (Visual SVN, ReSharper, dotTrace)
Basi di Dati	ORACLE 9i/10g, MySQL, PostgreSQL, Microsoft SQL Server 2000; SQL language.
Strumenti	Design Patterns (GoF+GRASP), UML, Eclipse, NetBeans, Microsoft Visual Studio, profiling - JProfiler/DotTrace, ANT, Maven, CVS, SVN, Git, SquirrelL, Toad, Far, MyGeneration, Doxygen, command line tools, scripting with Python
Industrialization	Project Automation with Maven and Ant. Nexus, Sonar. XUnit - JUnit, TestNG, DBUnit. Automated acceptance test with Selenium. Code coverage with Cobertura. Continuous integration servers - Hudson/Jenkins and TeamCity. Code quality metrics - Sonar, FindBug, PMD. Project management, wiki, bug tracker - Redmine. Software factories.
Certifications	I have earned the following certificates from Brainbench system:

	Interpersonal Communications		Computer Technical Support		HTML 3.2
	Internet Research Techniques and Resources (U.S.)		Java 2 Enterprise Edition (J2EE 1.4)		Java 1
	Java 2 Fundamentals		Java 2 - Non-GUI		Java 2 Platform Enterprise Edition (J2EE) 1.4 Fundamentals
	Java 5 Fundamentals		Java Server Pages 2.1		MS Windows XP Desktop Administration
	Networking Concepts		Network Security		OO Concepts
	Oracle PL/SQL Fundamentals		Programming Concepts		RDBMS Concepts
	Server Administration		Technical Help Desk		Computer Fundamentals (Win XP)
	Written English (UK)				

Conoscenze linguistiche

Russa	Lingua nativa.
Ukraina	Lingua nativa.
Francese	Correntemente. Più di 10 anni di esperienza. Avere il seguenti diplomi di francese del quadro comune europeo di Riferimenti per le lingue: DELF B1, B2, B3, DALF C2.
Inglese	Lettura / scrittura - molto buono, espressione orale - buono.
Italiana	Livello principiante. Gli corsi nel Istituto Italiano di Cultura - Dante ALIEGHIERI, Kiev.

Interessi

Interessi	Nuove tecnologie, sviluppo per piattaforma Java, Graphical User Interface (GUI) design and usability, geografia, lingue straniere.
Sport	Atletica, ginnastica, nuoto, pallavolo.
Blog	http://yevgen-fr.blogspot.com - Mio personale technico blog in Franchese e Inglese di IT, programmazione, Java.
Open Source	https://github.com/yev - Je suis intéressé par le mouvement OpenSource. J'aime lire le code de qualité et apprendre. Parfois je commite les patchs dans les projets Open Source.
IT-Conferences	Regularly and with enthousiasme attending differnet Java related conferences : Paris JUG, JavaOne 2011 in Mosca
